Speaker Profile

Mr. Miguel Moral

VP Software Development Nemotec

Founder and VP of Software Development at Nemotec, Miguel Del Moral has been a key driver of digital innovation in dentistry and orthodontics. With an engineering background and an entrepreneurial vision from an early stage, he has helped transform Nemotec into an international reference in digital dental planning, with landmark solutions such as NemoCeph and NemoFAB.

Throughout his career, Miguel has worked closely with leading dentists, orthodontists and maxillofacial surgeons, bringing together technological development and clinical expertise to create practical solutions for modern digital workflows. He often credits this journey to continuous learning and to “standing on the shoulders of giants” in the field.
